

ANDREW REEVES

MArch., OAA, RAIC

"I'm most interested in developing a context that responds to the scale of its surroundings by incorporating the principles of sustainability into a truly holistic design, and connecting with roots often traceable to indigenous design. My design philosophy is grounded in a basic conviction and fundamental belief that great architecture is less about style than it is about discovery. These beliefs are what drive my relentless pursuit of finding ways to connect function, environment, context, and sustainability to form a truly unique sense of place"

PROFESSIONAL EXPERIENCE

11/06 – Present **Linebox Studio Inc.**, Ottawa / Toronto, Ontario
Sole Principal

A innovative residential and commercial design/build firm that provides a fresh and progressive outlook on how people live, work and play in the urban context. At the heart of Linebox is the desire to continually explore the depths of our discipline and to understand it as a critical cultural act that engages our most fundamental experiences. We bring to our clients fresh and unique concepts in design while challenging the way we all inhabit space.

Selected Completed Projects:

Mini House, - Single Family Home, Toronto, Ontario
Lighthouse, - Single Family Home, Ottawa, Ontario
Foldplace, Single Family Home, Ottawa, Ontario
Engravings, Single Family Home and Retail Skin Care Store, Ottawa, Ontario

East Market Residence, Ottawa, Ontario

11/06 – 08/09 **DFAIT Foreign Affairs Canada**, Ottawa, Ontario
Architectural Consultant – Standing Offer

I recently completed a standing offer with Foreign Affairs Canada as a project designer / feasibility study consultant. Among other responsibilities, my scope of work included writing government RFP's, membership on the proposal review committee, completing feasibility studies, designing conceptual approaches and project management strategies, developing project delivery strategies and providing peer review on selected Canadian Embassies around the world.

Selected Projects:

Paris Embassy Relocation Study, Paris, France – Feasibility study lead
London Canada House Historic Restoration, UK – Conceptual Design leader
CBC Olympic Headquarters Interior Retrofit Study, London, UK – Conceptual Design leader
Russian Canadian Embassy, Moscow, Russia – Project Design leader
Brazilian Embassy Interior Retrofit, Brasilia, Brazil – Feasibility study lead

03/98 - 11/06

Senior Designer

Brisbin Brook Beynon Architects, Ottawa / Toronto Ontario

As a senior designer, I was a part of an 110 person international architecture firm and involved projects widely ranging in both scale and building type. With offices in Ottawa and Toronto, BBB's projects include large commercial, institutional, academic, government and health care facilities. "Planned spontaneity or happenstance is the sensation of experience and anticipation, the result of form and space colliding yet co-existing. That is architecture."

Selected Projects:

Ottawa Congress Centre – New Congress centre, Ottawa, Ontario, - Conceptual design and RFP team member
Carleton University – New University Centre, Ottawa, Ontario, - Project Design Lead
Durham Regional Headquarters and Courthouse, Durham, Ontario - Design/Build team member
Ottawa International Airport, Ottawa, Ontario - Project Design team member
